Sega Mega Drive console returns

It's not exactly cutting edge these days, but if you happen to be up for some old school gaming during a particularly empty weekend, the newly-returned **Sega Mega Drive console** will offer that and gameplay galore.

Slightly smaller than the original, the new Mega Drive comes with two controllers and 15 licensed Sega classics pre-loaded. And when you get bored of those, head off down to your local car boot sale, as this console also has a slot for any original cartridges you can find too.

If you fancy a break from the Wii for some 'proper' gaming, it's available now, priced at £37.95.
